INFORMATION PARTNERS

“ We really liked the LABComplex 2019 exhibition at ACCO International, a very nice place, a nice park. This year we had even more visitors than year before last. It was nice to see regular customers and meet new ones. ”

**Yulia Podvorna, Head of Nabertherm Direction
Representative Offices of NETZSCH and Nabertherm GmbH in Ukraine**

“ Many thanks for the opportunity to participate in the exhibition. In general, we were pleased with the participation. The Exhibition Centre was actually small, but I think it was a plus because visitors could see all the stands presented there. During the exhibition there were questions, but everything was resolved. ”

Kristina Konosova, EximCargoTrade Marketing Specialist

“ The International School of Technical Legislation and Quality Management (ISTL) expresses its gratitude to the organizers of the LABComplex 2019 exhibition for the opportunity to share relevant information and experience with the vast number of specialists of the laboratory industry, to establish partnerships, to share the developments in the field of the European technical legislation i.e. standards and rules, developments in the field of systems management and preparation of laboratories for accreditation both at the conference and at the ISTL stand. ”

**Ramazanov-Stiopkina O.A., Director of the International School
of Technical Legislation and Quality Management**

“ The Quality Laboratory Company participated in the LABComplex 2019 International Exhibition and held a seminar on “Proper work of quality control laboratories” which was attended by more than 150 participants from all over Ukraine.

For our company this exhibition is a good opportunity to meet our regular listeners and partners we have long-standing relationships with, as well as an opportunity to meet new potential participants of our events.

We would like to thank the exhibition organizers for their professionalism, help and support. All questions were promptly and qualitatively solved, it was very nice to work with you! We wish you further successful development! We hope for further fruitful cooperation, ready to participate next year with a new interesting topic of the seminar! ”

The Quality Laboratory Company

“ Our Ukrainian Association of Bakers has traditionally become a partner of the exhibition and organized a conference to discuss such important issues as the legislation of Ukraine for food companies and the reform of technical regulation system. We thank you for your cooperation, the conference was successful, the organizers and participants were pleased. ”

Savenko K.I., The Analyst of Ukrainian Association of Bakers

“ I want to say that I was very pleased with the exhibition this year. First of all, the premises are convenient to get to. On the way to the central entrance you get aesthetic pleasure as you walk through O.S. Pushkin's park. For the second, everything was compact and conveniently located in the hall. They've presented everything that was related to the laboratory diagnostics. We enjoyed very “tasty” master classes from leading companies. The Ukrainian Laboratory pleased us with the lectures, which gave answers to the questions concerned with the introduction of the notorious ISO 15189 standards in state laboratories. One big drawback is the inability to attend all three days, but this is not the organizers problem. Overall, the highest score this fall is 12. Thank you very much! ”

Kovalchuk V.V., Head of the Division at the ACMD-Medox Medical Center

“ This year, I managed to visit this exhibition for the first time and I have only good and positive memories thereof. Great companies and equipment, it was very interesting and helpful. Thank you for the exhibition! ”

➤ **Oleksandr Kalinin, Head of KOLORIT Paints**

“ Thanks to this event, we were able to talk to specialists, pick up the equipment we needed and buy it. Thank you for organizing this much-needed event! ”

➤ **Nechyporenko N.M., Head of the Unit at No.2 Dermatovenerologic Dispensary of Desnianskyi District of Kyiv**

“ Thank you very much! The exhibition was held at the highest level, I've received lots of information about appliances, equipment etc. I will be glad to visit a new exhibition at another time. Wish you all the best. Good luck! ”

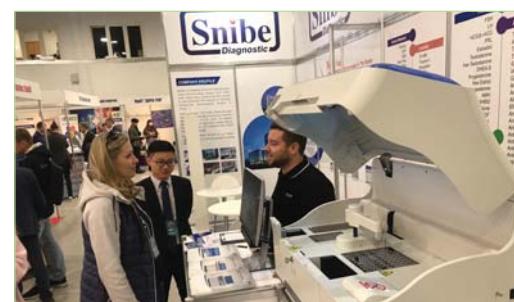

➤ **Korniienko A.Yu., Kyiv Scientific Research Institute of Forensic Expertise**

“ Thank you for interesting trainings, good organization of all events, opportunity to get acquainted with new technologies and equipment. It's convenient and nice to meet friends on such a platform! Wish you successes and inspiration in your work. I look forward to further similar events! ”

➤ **Romanova I.A., Head of the Division at the Municipal Non-Profit Enterprise “National Center for Medical Diagnostic and Laboratory Medical Assistance” of Melitopol City Council of Zaporizhzhia Region**

“ In my opinion, the exhibition was informative and interesting because it showed instruments and products, which greatly facilitate the work of laboratories. Also, a combination of lectures and workshops where people shared their experiences was a good idea. I wish success and development to you and your events. Thank you for the opportunity to visit LABComplex 2019! ”

➤ **Naisyk L.P., Specialist of Ternopil Regional Tuberculosis Dispensary**
